

Name \_\_\_\_\_

## Fractions with Pattern Blocks - Making Shapes

Using pattern blocks and the shapes below, solve the problems.

square

trapezoid

triangle

rhombus

hexagon

Put six triangles together so six points meet in the middle.  
What shape is it?

Each tri

Put four

What sh

Each s

Put three

What sh

Each rhombi is what fraction of the whole? \_\_\_\_\_

Put two triangles together to make one whole four sided shape.  
What shape is it? \_\_\_\_\_

Each triangle is what fraction of the whole? \_\_\_\_\_

Put two trapezoids long sides together to make one whole six sided shape. What shape is it? \_\_\_\_\_

Each trapezoid is what fraction of the whole? \_\_\_\_\_

square

trapezoid

triangle

rhombus

hexagon

Put six triangles together so six points meet in the middle.  
What shape is it? hexagon

Each tri

Put four

What sh

Each so

Put three

What sh

Each rhombi is what fraction of the whole?  $\frac{1}{3}$

Put two triangles together to make one whole four sided shape.  
What shape is it? rhombus

Each triangle is what fraction of the whole?  $\frac{1}{2}$

Put two trapezoids long sides together to make one whole six sided shape. What shape is it? hexagon

Each trapezoid is what fraction of the whole?  $\frac{1}{2}$
