

## Circle Fractions - One Fourth $\frac{1}{4}$

One whole circle can be partitioned into four parts of the same size and same shape.

Each quarter circle is  $\frac{1}{4}$  or one of four parts that when put together are the same size and shape as the whole.

Color and cut out the four quarter circles at the bottom of the page and glue onto the circle with the  $\frac{1}{4}$ s. Color the whole circle.
