# ★ SIGHT WORD BINGO ★

## DOLCH PRE-PRIMER SIGHT WORDS

### This sight word Bingo set includes:

- Two pages of 40 Dolch pre-primer sight words cards
- Two reproducible pages of star squares for markers
- 40 full page sized Bingo cards with a free space in the middle square of every card

### To get ready for the game:

- To make the game pieces last longer, print the pages on cardstock or other heavy paper.
- Print the sight words cards on a separate sheet of paper.
- Print the Bingo cards on a separate sheet of paper.
- Print the markers on a separate sheet of paper.

### The objective:

Be the first to get a BINGO by being the first to cover all five words in a row, column or diagonally.

### To play:

For 2 or more players. The players can start the game by putting a marker on the FREE space if they want to, but it's not necessary.

One person is the caller. This person reads and calls out the words on the Bingo cards one by one then puts them in a separate pile. As the caller calls out a word each player looks over their Bingo card for that word. If that word is found, the player puts a marker over the word. The caller continues to read the words on the cards.

When a player has five words in a row covered either horizontally, vertically or diagonally he or she calls out "BINGO!". (If you play the blackout version the player should call out "BLACKOUT!") The caller then checks the player's words against the words on the cards that have been called. If they have all been called the player is the winner. If they have not all been called, the game continues until someone else has "Bingo".
